

Flavour

Flavour è una cucina contemporanea che grazie alle diverse tipologie di ante e alle molteplici finiture può essere interpretata seguendo stili diversi. In questo modo le cucine Flavour cambiano aspetto a seconda dell'ambiente assumendo un mood classico o moderno.

Flavour is a contemporary kitchen able to follow different styles, thanks to the different types of doors and the various finishes. In this way, the compositions of Flavour model change their appearance depending on the environment, taking on a classic or modern way.

**Il modello Flavour è
certificato
GREENGUARD Gold
per le sue strutture
e le sue ante.**

**The Flavour model is
GREENGUARD Gold
certified for all the
carcasses and doors.**

Certificazioni GREENGUARD e vernici Low VOC

Le ante e le strutture del modello Flavour sono contraddistinte dalla Certificazione GREENGUARD e GREENGUARD Gold. I prodotti che hanno ottenuto questa Certificazione sono testati dai laboratori UL, per soddisfare gli standard più rigorosi in termini di livelli di emissione di composti organici volatili (COV) emessi da mobili, superfici e vernice oltre ad altre sostanze chimiche nocive negli ambienti interni, contribuendo a ridurre l'inquinamento dell'aria interna e il rischio di esposizione chimica.

La Certificazione GREENGUARD Gold include criteri aggiuntivi basati sull'impatto delle sostanze chimiche sulla salute umana e richiede che i livelli di emissioni dei prodotti siano accettabili per l'uso in ambienti come scuole o strutture sanitarie frequentati da una fascia sensibile di persone come bambini e anziani.

Inoltre tutte le vernici utilizzate per le ante laccate del modello Flavour sono Low VOC, prodotti che rispondono ad elevati standard di sicurezza. In particolare, tali vernici sono conformi al Regolamento REACH, non contengono sostanze pericolose come le sostanze CMR e SVHC, sono conformi agli standard di emissioni indoor COV (Composti Organici Volatili). L'accurata selezione delle materie prime è stata pensata con il preciso scopo di ridurre significativamente i rischi di manipolazione ed esposizione per l'operatore e l'utilizzatore finale.

GREENGUARD Certifications and Low VOC paints

The doors and carcasses of the Flavour model are GREENGUARD and GREENGUARD Gold Certified. The products that have achieved this Certification are tested by the UL laboratories in order to meet some of the world's most stringent standards in terms of volatile organic compounds (VOC) emissions from furniture products, surfaces and paint, as well as other harmful chemicals in indoor environments, helping to reduce indoor air pollution and the risk of chemical exposure.

The GREENGUARD Gold Certification includes additional criteria based on the impact of chemicals on human health and requires that the total VOC (volatile organic compounds) emission limits are such as to help ensure that the products are acceptable for use in environments like schools and health facilities, frequented by a sensitive group of people such as children and the elderly.

In addition, all the paints used for the lacquered doors of the Flavour model are Low VOC, which means products meeting high safety standards. Specifically, these paints comply with the REACH Regulation, do not contain dangerous substances such as CMR and SVHC, and comply with indoor VOC (Volatile Organic Compounds) emissions standards.

We carefully selected the raw materials with the specific aim of significantly reducing the risks of handling and exposure for the operator and the final user.

Caratteristiche Vernici Low VOC

Conformità al Regolamento REACH

Etichettatura A+ dimostra la qualità e il ridotto impatto ambientale che si ottiene utilizzando questi prodotti per la verniciatura di arredi domestici.

Conformità delle Emissioni indoor di COV (ambienti domestici)
Emissioni indoor: Norma 16000-9

Soddisfano i requisiti del Dipartimento della sanità pubblica della California, Metodo standard per il test e la valutazione delle emissioni di sostanze chimiche organiche volatili

Conformi allo standard BIFMA X7.1 e ai crediti BIFMA e 3 7.6.1, 7.6.2 e 7.6.3.

Low VOC paints features

Compliance with the REACH Regulation

A + labeling. It demonstrates the quality and the reduced environmental impact obtained by using these products for the painting of domestic furnishings.

Indoor VOC emissions compliance (domestic environments) Indoor emissions: Standard 16000-9

They comply with requirements of the state of California's Department of Public Health "Standard Method for the Testing and Evaluation of Volatile Organic Chemical Emissions"

Compliant with BIFMA X7.1 standard and BIFMA and credits e 3 7.6.1, 7.6.2 and 7.6.3.

MODULARITÀ E COMPONIBILITÀ MODULARITY AND FITTING SOLUTIONS

APERTURA A RIBALTA

Le ante aprendosi verso l'alto consentono di avere un' ampia visione d'insieme all'interno del mobile.

La regolazione della forza di apertura può essere impostata in modo esatto in base al peso del frontale. Grazie all'arresto progressivo le ante si fermano in qualsiasi posizione; in questo modo la maniglia è sempre facilmente raggiungibile. La chiusura è ammortizzata e un'unica manovra è sufficiente per regolare il frontale tridimensionalmente grazie all'assenza di cerniere e al sistema di aggancio clip.

WALL UNIT WITH FLAP DOOR

The doors that open upwards guarantee ample overall visibility inside the cabinet.

The opening force can be adjusted precisely according to the weight of the front. The doors stop in any position thanks to the gradual stopping movement; in this way, the handle is always easily accessible. The closing movement is cushioned and a single manoeuvre is required to three-dimensionally adjust the front, thanks to the clip-on system and the absence of hinges.

APERTURA VERTICALE OBLIQUA

I pensili con questo tipo di meccanismo necessitano per l'apertura di poco spazio libero sopra il mobile grazie al movimento basculante dell'anta che si apre senza difficoltà applicando poca forza anche in presenza di frontali pesanti. Con l'arresto progressivo le ante si fermano in qualsiasi posizione; in questo modo la maniglia è sempre facilmente raggiungibile. La chiusura è ammortizzata ed è possibile regolare la forza di tenuta in base al peso del frontale.

VERTICAL OPENING OBLIQUE

Wall units that mount this type of mechanism require little clearance above the cabinet thanks to the swivelling movement of the door that can be easily opened by applying slight pressure, even with heavy fronts. The doors stop in any position thanks to the gradual stopping movement; in this way, the handle is always easily accessible. The closing movement is cushioned and the closing force can be adjusted according to the weight of the front door.

H 60	18	9,6	46,5	53,5
H 72	18	9,6	57	61

APERTURA VERTICALE

L'anta ad apertura verticale, potendo essere sollevata completamente verso l'alto, consente un accesso totale all'interno del pensile. Ideale per l'impiego in mobili a colonna per nascondere ad esempio apparecchi elettrici, o pensili con corpi mobili sovrastanti, ha la chiusura ammortizzata e la possibilità di regolare la forza di tenuta in base al peso del frontale.

VERTICAL OPENING

Doors with vertical opening movement can be fully raised to fully access the inside of the wall unit. Ideal for use on column units to conceal electrical appliances for examples, or on wall units surmounted by mobile units. The closing movement is cushioned and the closing force can be adjusted according to the weight of the front door.

APERTURA ANTE A PACCHETTO

Il meccanismo d'apertura ante a pacchetto è idoneo sul pensile H 72; la regolazione della forza di apertura può essere impostata in modo esatto in base ai pesi dei frontali, la chiusura è ammortizzata e la cerniera centrale clip si contraddistingue per l'innovativa tecnologia che garantisce la sicurezza per le dita.

LIFT-UP FOLDING DOORS

The lift-up folding door opening mechanism is suitable for wall units with H 72; the opening force can be adjusted precisely according to the weight of the fronts, while the closing movement is cushioned and the central clip-on hinge features innovative technology for safeguarding the fingers.

“NOOK” CLOSET COLUMNS H 217 D 70,6 WITH DOORS INWARDS

Il tavolo estraibile è disponibile nella versione inox o in laminato, nella finitura oak cognac

The pull-out table it's available in stainless steel version or laminate oak cognac finish

ZOCCOLO
H 6 centimetri
=
più volume di
contenimento

Con lo **zoccolo** ad altezza ridotta a 6 cm, si possono **guadagnare centimetri preziosi di contenimento**, dando alla cucina l'aspetto elegante di un living.

Valuable space has been saved by lowering the plinth to 6 cm, and so the kitchen will take on a stylish look such as a living room.
